2. **Research and extension (From 1st January 2014 to till 2019) (calendar year)**

(a) **Research summary**

Sr. No.	Name of the project and duration	Name of Teachers	Amount of seed money provided (INR in Lakhs)	Sanctioned Year
1.	Creating database of psychiatric illness in a community of rural and urban industrial setting of .pimpri chinchwad	Dr. D. Saldanha	2.02	2016

(b) **List of ICMR – STS Research projects sanctioned (From 1st January 2014 to till 2019) (calendar year)**

Sr. No.	Name of the Project	Investigators	Name of the Guide	Year of Award	Duration of the project	Funding Agency	Total amount of funds received
1	Evaluation of Treatment Adherence in Patients of Schizophrenia Attending Psychiatry OPD	Roma Shahani	Dr. B. L. Chaudhari	2015	6 months	ICMR	10000/-
2	To find out the level of perceived stress, resilience, risk taking and self harm in first year MBBS students and to find correlation between them	Sakshi Kesharwani	Dr. Preethi Menon	2016	6 months	ICMR	10000/-

3. PO and CO Analysis (UG as well as PG) Programme Outcomes (PO)

By the end of the course, the student should have acquired Knowledge (Cognitive Domain), Professionalism (Affective Domain) and Skills (Psychomotor Domain) as given below:-

1 Cognitive domain

aGeneral topics :

1. The student should be able to demonstrate knowledge of basic sciences (Anatomy, Physiology, Biochemistry, Microbiology, pathology and Pharmacology) as applied to psychiatry.
2. The student should be able to explain aetiology, assessment, classification and management and prognosis of various psychiatric disorders (including psychiatric sub-specialities), and Neuroanatomy, Neurophysiology, Neurochemistry, Neuroimaging, Electrophysiology, Psychoneuroendocrinology, Psychoneuroimmunology, Chronobiology and Neurogenetics
3. Acquire Knowledge of delirium, dementia, amnesic & other cognitive disorders and mental disorders due to a general medical condition.
4. The student should be able to explain follow-up care of person suffering from chronic relapsing psychiatric ailments.
5. The student should acquire knowledge of emergency measures in acute crisis arising out of various psychiatric illnesses including drug detoxification and Withdrawal.
6. The student should acquire Knowledge of pharmacokinetics & pharmacodynamics of drugs involved in psychiatric management of patients.
7. The student should acquire Knowledge of (a) Normal child development and adolescence, mental retardation in children (b) learning & associated disorders and their management.
8. The student should acquire Knowledge and be able to explain mechanisms for rehabilitation of psychiatric patients.
9. The student should acquire Knowledge of substance related disorders and their management.
10. The student should acquire Knowledge of psychotic disorders, mood disorders, and anxiety disorders and their management.
11. The student should acquire Knowledge of sexual and gender identity disorders and their management
12. The student should acquire Knowledge of eating disorders and sleep disorders and their management.
13. The student should be conversant with recent advances in psychiatry

14. The student should be conversant with routine beside diagnostic and therapeutic procedures and acquire knowledge of latest diagnostics and therapeutics procedures available
15. The student should be conversant with variant policy related aspects pf psychiatric practice in India(eg. Mental Health Act, National Health Mental Health Programmes etc.)
16. the student should be conversant with research methodologies

B Affective Domain:

1. The student should be able to function as a part of team, develop an attitude of cooperation with colleagues, interact with the patient and the clinician or other colleagues to provide best possible diagnosis or opinion
2. The student should always adopt ethical principles and maintain proper etiquette in dealings with patients, relatives and other personnel.
3. The student should demonstrate respect for the rights of the patient including the right to information and second opinion
4. The student should develop communication skills to prepare reports and professional opinion as well as to interact with patients, relatives, peers and paramedical Staff, and for effective teaching.

C Psychomotor Domain

At the end of the course, the student should acquire the following clinical skills and be able to:

become an expert in good history taking, physical examination, mental state examination, and be able to establish rapport and counsel family members and Patients on scientific basis, choose the required investigations for both short and long term management.

At the end of the course , the students should be able to :

1. Obtain a proper relevent history, and perform a humare and through clinical examination including detailed mental state examinations using proper Communication skills.
2. Arrive at a logical working diagnosis and differential diagnosis after clinical examination.
3. Order appropriate investigations keeping in mind their relevance and cost effectiveness and obtain additional relevant information from family members to help In diagnosis and management.
4. Identify psychiatric situations calling for urgent or early intervention and refer at the optimum time to appropriate centres.

5. Write a complete case record with all necessary details.
6. Write a proper discharge summary with all relevant information.
7. Obtain informed consent for any examination/procedure.
8. Perform clinical audit.
9. Must be able to perform modified Electroconvulsive therapy (ECT).

The student, at the end of the course should be able to perform independently, the following:

1. Conduct detailed Mental Status Examination (MSE)
2. Cognitive behavior therapy
3. Supportive psychotherapy
4. Modified ECT
5. Clinical IQ assessment
6. Management of alcohol withdrawal
7. Alcohol intoxication management
8. Opioid withdrawal management
9. Delirious patients
10. Crisis intervention

The student must be able to demonstrate approach to patient with variety of clinical presentations including following symptoms:

Auditory hallucinations

1. Visual hallucinations
2. Pseudo hallucination
3. Seizure true and pseudo seizure
4. Panic attack
5. Manic symptoms
6. Behavioural symptoms of schizophrenia
7. Catatonia
8. Delirium
9. Malingering

The student, at the end of the course should be able to perform under supervision, the following:
Behaviour therapy

1. Opioid intoxication management
2. Genetic counselling
3. Family therapy

The student at the end of the course should be able to assist the expert in the following :

1. Interpersonal therapy
2. Management of suicide attempt

2. Alumni Placement (Till date)

Sr. N	Name of student	Degree	Year Passing	Placement
1	Dr. Trupti C.	D. P. M.	2007	Private Practice
2	Dr. Rohan J.	M. D.	2008	Consultant – Aditya Birla, Pune Hospital. Private Practice
3	Dr. Ketan V.	D. P. M.	2008	Psychiatrist Yerawada Regional Mental Hospital, Civil Hospital, Pune
4	Dr. Ashish Ubhale	M.D.	2009	Lecturer- MIT, Talegaon
5	Dr. Abhinit Kumar	D.P.M	2009	Senior Resident- VMMC & Safdarjung Hospital, New Delhi
6	Dr. Vishu Tantia	M.D.	2010	Private Practice
7	Dr. Rishi Anand	D.P.M	2010	Private Practice
8	Dr. Devajit Daw	M.D.	2011	Private Practice
9	Dr. Agrim Bery	D.P.M.	2011	Joined D.N.B. (Psy)
10	Dr. Vishal Patel	M.D.	2012	Private Practice
11	Dr. Anuja Kelkar	M.D.	2012	Private Practice
12	Dr. Sumit Beniwal	M.D.	2013	Private Practice
13	Dr. Rujuta Golwalkar	M.D.	2013	Private Practice
