A Department Project named STRIDE (Scheme for Trans-disciplinary Research for India's Developing Economy) has been selected and sanctioned by the UGC for the duration of Three years. The project STRIDE is titled as "To create a replicable model for sustainable living through studies on agriculture, water conservation, health and renewable energy in rural areas".

The main objective of this project is capacity building in diverse disciplines by mentoring, nurturing and supporting young talents for innovative pragmatic solutions for a local, regional, national and global problem. The primary focus of the project is concerned with the issues of the less advantaged rural communities like agriculture, water, energy, livelihoods, needs of the informal sector and environmental and social services. The amount sanctioned under this project is 91 Lakhs.

This project consists of five sub-projects framed in trans-disciplinary methods. They are Sustainable and profitable farming, Energy and water self-reliance, Documentation of traditional knowledge, exploring alternative revenue streams, and Understanding and solving pertaining to health issues. Dr. Bhargav Gaikwad, Assist. Prof., Department of Community Medicine, working as a member of mentoring and monitoring committee for the health, water and sanitation problems in these villages and Dr. D. Y. Patil medical College, Hospital and Research Centre is a partner in this project. The other partners in this project are:

- 1) KTHM college Nashik (Chief institution where this project is registered)
- 2) CTARA, IIT, Mumbai. The CTARA Centre is ready to provide support for technical help for execution of project. They are ready to sign an MOU for this.
- 3) District Planning Committee, Nashik
- 4) Sahyadri Farms, Mohadi, Dist. Nashik (Farmer Producer Organisation)
- 5) Krishi Vidnyan Kendra, Nashik
