

## **“Hands That Heal/the Silent Warriors”**

### **Felicitation of “COVID Warriors” at Dr. D. Y. Patil Medical College, Hospital & Research Centre, Pimpri, Pune**

1. Remember the good old doctor who lives in your neighborhood? Well, we had a witty, blunt-talking doctor, whose very presence was reassuring and dissipated all fears. Every day, you would find him at his clinic. Calm, gentle, patient, he would untiringly, speak to each and every patient and understand their medical issues. He was there for everyone and his presence was an assurance to everyone that they will get well soon.
2. Well, he is my doctor..... our doctor in the neighborhood. Serving from the time when people had a family doctor to today when one doesn't even know who the doctor treating them is, these doctors stand out brining innumerable success stories. Proving that age is just a number, they find pleasure in treating the public with a lost of patience that many lack in today's world. But, there are still good doctors like him. Like warriors... they are resilient, resolute and steadfast in their mission. They have prioritized service over everything else in their life and they have proved it by their dedicated and unflinching selfless service from time immemorial.
3. Even now, in the times of COVID-19 Pandemic, the world's attention has been justifiably dedicated to stopping the transmission of the disease, whether by quarantines and social distancing or vaccines.
4. Our doctors are in the front line without paying heed to their own safety and immunity. Alongwith them are nurses and health care workers.
5. Dr. D. Y. Patil Medical College, Hospital & Research Centre, Pimpri, Pune appreciated the efforts taken by the COVID Warriors including teaching staff, non-teaching staff and nursing staff for their significant contribution in health care delivery of patients. As a token of appreciation, the College felicitated them for their extra-ordinary work.
