COMPUTERIZED INFORMATION RETRIEVAL

Considering the importance of computerization, the DYPMC LRC has set up an Information Centre. The library has prepared a database of books and periodicals in different subjects. The house-keeping activities like Acquisition, Serial control, Cataloguing, OPAC have been automated by using "DPU Campus ERP Library Management System".

In Internet section there are 50 Pentium PCs with Leased Line connections of 2000 Mbps bandwidth kept to provide the free services to our users. Users can access our in-house databases and CD-ROMs and other electronic resources available in the library. All PCs are connected with Local Area Network (LAN) to reduce the time of the user and three heavy-duty network printers are installed. Scanner facility is also provided to them to prepare their presentations.
