**Activity:** Awareness programme on World Rabies Day and Heart Day Event Highlights Disease Prevention, Risk Factors and Healthy Lifestyle Practices on 29.09.2023

**Venue:** UHTC, Ajmera

**Description:** On the occasion of 'World Rabies Day' (28/09/2023) and 'World Heart Day' (29/09/2023), an awareness program was organized on 29/09/2023 by UHTC, Department of Community Medicine. The event was conducted under the guidance of Dr. Hetal Rathod, Head of the Department of Community Medicine, and Dr. Swati Ghonge, Associate Professor and Dr Kanchan Ingle. The program began with an introductory speech by LMO, Dr. Tanu Baxi. Following this, Dr. Sneha Singh provided comprehensive information on rabies, while Dr. Shreeya Dale explained how the disease spreads. Dr. Apoorva Polekar further elaborated on the prevention and treatment of rabies. The presentations were enhanced with detailed pictorial charts to educate the patients. In observance of 'World Heart Day,' Dr. Tanu Baxi delivered a speech highlighting the risk factors for heart diseases, such as diabetes, a sedentary lifestyle, and a high-cholesterol diet. She also provided practical advice on prevention, emphasizing the importance of a balanced diet, regular exercise, and reducing alcohol consumption and smoking. They actively participated in delivering speeches and raising awareness about both World Rabies Day and World Heart Day.

**Activity:** Menstrual Hygiene Health Education Camp: Dispelling Myths and Providing Accurate Information

**Venue:** Markal

**Description:** A health education camp was organized regarding menstrual hygiene among school girls. The primary objective of the program was to dispel myths and provide accurate information about menstruation. The event was led by Dr. Shweta Chauhan, Assistant Professor, with the support of Dr. Kavita, Dr. Aishwarya (LMO), two postgraduate students, one medical social worker, and one nurse, all of whom were integral members of the medical team. Dr. Shweta highlighted the significance of maintaining menstrual hygiene and demonstrated various methods, including the use of sanitary pads and menstrual cups. She also stressed the importance of a balanced diet during menstruation. Other medical officers were present to address and clarify any related concerns.

The event was very successful with the help of school teachers. More than 300 students were benefitted from this programme.

**Activity:** Sensitizing community on symptoms of asthma on World Asthma Day on 07/05/2024.

**Venue:** RHTC, Alandi

**Description:**

On May 7, 2024, a Health Education Programme was organized at RHTC, Alandi, on occasion of World Asthma Day, aimed at raising awareness about asthma and its management. The programme commenced with a health talk delivered by Dr. Shital Patil, focusing on asthma's causes, aggravating factors such as seasonal variations, and the significance of observing World Asthma Day. Dr. Shweta continued with an informative session highlighting the importance of increasing public knowledge about asthma, its triggers, and effective management strategies for patients, families, and healthcare providers. Interns actively participated by emphasizing the theme "Asthma can't hold us back: let's raise awareness together," and they displayed posters advocating for maintaining healthy lungs and the benefits of early treatment.

The success of the event was attributed to the contributions of Dr. Yogesh Kawane and the supportive staff, who played integral roles in ensuring the programme effectively educated and empowered attendees about asthma awareness and care.

**Venue:** RHTC, Alandi.

**Description**

On May 16, 2024, the National Dengue Day Awareness Programme was held successfully, featuring a comprehensive health talk delivered by Dr. Shital Patil. The main focus of the event was to enhance public understanding of the life cycle of the Aedes mosquito, a critical vector responsible for transmitting dengue fever. Medical officers emphasized key aspects such as recognizing the signs and symptoms of dengue, stressing the importance of early medical intervention, including blood investigations and appropriate treatment protocols. Concurrently, interns actively contributed by creating informative posters aimed at educating attendees on dengue prevention and management strategies. The program's success was greatly bolstered by the collaborative efforts of Mr. Joseph Cherian, dedicated staff members, and supportive patients.

To foster a welcoming atmosphere, tea and snacks were provided to all participants, ensuring that the event not only disseminated crucial information but also facilitated constructive dialogue and community engagement on combating dengue effectively.

**Venue:** RHTC, Alandi

**Description:**

On June 5, 2024, the RHTC Complex hosted a celebration of World Environment Day with a program aimed at raising awareness about environmental protection and encouraging individual action. The event featured informative sessions led by medical officers, who discussed various forms of pollution and practical steps to mitigate them. Dr. Shweta Chauhan, Assistant Professor, highlighted the critical role of plantation in reducing carbon dioxide emissions and advocated for the planting of trees on every special occasion. The event also saw active participation from interns, who created and presented posters to educate the audience on environmental issues. They further contributed by planting trees around the OPD area, symbolizing their commitment to a greener future. The program was a resounding success, thanks to the efforts of the staff and the involvement of patients. The event concluded on a positive note, with tea and snacks provided for all attendees.

**Activity:** Awareness session on blood donation on 14/06/24 at RHTC.

**Theme:** "20 years of celebrating giving: thank you blood donors!"

**Venue:** RHTC Alandi

**Description:**

On June 14, 2024, a health education awareness campaign on blood donation was conducted with the goal of providing the public with scientific information about blood, the importance of blood donation, and addressing common facts and myths surrounding the topic. During the campaign, Medical Officers highlighted the critical need for blood in life-saving situations, such as accidents, surgeries, deliveries, and the treatment of diseases like cancer. They emphasized that there is no substitute for blood in these circumstances, urging the public to volunteer as blood donors. Interns actively participated in the event, engaging the audience in discussions about the lifespan of blood, its components, functions, blood groups, and related disorders. Their contributions helped to deepen the public's understanding and dispel any misconceptions. The program was highly successful and well-received by the community. It provided valuable insights and was deemed very beneficial. The event concluded with tea and snacks for all attendees, fostering a sense of community and appreciation.

**Activity:** Providing medical aid to devotees in Aashadhi Wari by conducting Medical Camp

**Venue:** RHTC, Alandi

**Description:**

A multi-diagnostic medical camp was successfully conducted from 27th to 29th June 2024 at the Rural Health Training Centre (RHTC) in Alandi. The camp also included a mobile clinic that provided medical services to devotees at the Alandi bus stand. Additionally, intern doctors offered medical assistance at various outposts and the rural hospital in Alandi.

The RHTC medical team was on duty 24/7 during the Ashadhi Wari, making significant efforts to extend medical care to as many devotees as possible. Over the course of the event, more than 2,138 patients received medical care through the camp and the mobile clinic.

The medical team consisted of 12 interns, 2 postgraduate students, 6 faculty members, and 24 support staff, all of whom played a crucial role in the success of this initiative. The dedication and commitment of the team were highly appreciated by the patients, many of whom expressed their gratitude for the care they received.

This event was organized under the guidance of the Department of Community Medicine and the medical store, with the support and direction of Dr. J.S. Bhawalkar, Dean of the institution.

**Activity:** Educating community on prevention of dehydration on occasion of World ORS Day.

**Theme:** "Create Awareness about the Magic Mixture"

**Venue:** RHTC, Alandi

**Description:** On July 29, 2024, World Oral Rehydration (ORS) Solution Day was commemorated at RHTC, Alandi. The session aimed to spotlight the crucial role of ORS in treating diarrhoea induced dehydration. Doctors emphasized ORS as a fundamental tool in diarrhoea management, its significance in preventing adverse effects of dehydration. Interns illustrated how to prepare ORS at home for prompt treatment and recovery. An engaging session was held identifying danger signs of dehydration and importance of timely medical intervention. Medical officers, residents, interns and patients were active participants of the session.
